SUBJECT INDEX

Abies alba
Pitostroma abietinum gen. et sp. nov., a new coelomycete on twigs of *Abies alba* 685
Abies balsamea
Metabolites toxic to spruce budworm from balsam fir needle endophytes 281
Acaulospora
The rate of development of mycorrhizas affects the onset of sporulation and production of external hyphae by two species of *Acaulospora* 643
Acaulospora laevis
Evidence for differential responses between host/fungus combinations of vesicular–arbuscular mycorrhizas from a grassland 415
Detection of specific antigens in the vesicular–arbuscular mycorrhizal fungi *Gigaspora margarita* and *Acaulospora laevis* using polyclonal antibodies to soluble spore fractions 477
The rate of development of mycorrhizas affects the onset of sporulation and production of external hyphae by two species of *Acaulospora* 643
Acer platanoides
Discosia ludwigii sp. nov. 527
Achlya bisexualis
Inwardly directed ionic currents of *Allomyces macrogynus* and other water moulds indicate sites of proton-driven nutrient transport but are incidental to tip growth 925
Adhesive conidia
Fungal attachment to nematodes 401
Adoryphorus couloni
Characterization of *Metarhizium anisopliae* isolates from Tasmanian pasture soils and their pathogenicity to redheaded cockchafer (Coleoptera: Scarabaeidae: *Adoryphorus couloni*) 92
Aflatoxin
Inhibition of aflatoxin B1 production by emetine in stationary cultures of *Aspergillus flavus* 385
Agaricus bisporus
Persistent meiotic arrest in basidia of *Agaricus bisporus* 125
Agaricus bitorquis
Electron microscopy of the infection process of rapid soft rot disease of the edible mushroom *Agaricus bitorquis* 717
Aigialus stratispora
Aigialus striatispora sp. nov. from intertidal mangrove wood 1044
Air-spora
Indoor and outdoor incidence of airborne fungal allergens at low and high altitude alpine environments 117
Variations in tropical airspora in Singapore 221
Preliminary survey of airborne fungal propagules in Turin, Italy 535
Allergens
Indoor and outdoor incidence of airborne fungal allergens at low and high altitude alpine environments 117
Allomyces macrogynus
Inwardly directed ionic currents of *Allomyces macrogynus* and other water moulds indicate sites of proton-driven nutrient transport but are incidental to tip growth 925
Alternaria alternata
Invasion of rust (*Puccinia poarum*) pycnia and aecia on coltsfoot (*Tussilago farfara*) by secondary pathogens: death of host leaves 309
The relationship between fungal growth and ergosterol content of wheat grain 965
Altitudinal distribution
Indoor and outdoor incidence of airborne fungal allergens at low and high altitude alpine environments 117
Amylase
Extracellular amylase in myxomycete plasmodia and its fate during differentiation 990
Anamirta cocculus
New species of *Cercosporella* and *Pseudocercospora* from South India 55
Anastomosis
2,4-D induced, c-AMP mediated, sclerotial formation in *Rhizoctonia solani* 863
Anguillospora filiformis
Endophytic aquatic hyphomycetes of roots of spruce, birch and maple 305
Anthracene
Identification of xyloside conjugates formed from anthracene by *Rhizoctonia solani* 509
Antibiosis
Production of acid is responsible for antibiosis by some ectomycorrhizal fungi 971
Antifungal activity
Indole-3-ethanol produced by *Zygorrhynchus moelleri*, an indole-3-acetic acid analogue with antifungal activity 71
Antifungal activity of chitosan on postharvest pathogens: induction of morphological and cytological alterations in *Rhizopus stolonifer* 769
Antrodia carbonica
Identity and distribution of Basidiomycotina colonizing Douglas fir poles during three years of air seasoning 321
Antromycopsis broussonetiae
First record of the natural occurrence in Europe of the basidiomycete *Pleurotus cystidiosus* on a new host 874
Aphanoascus fulvescens
The chemical composition of the wall of six species of *Aphanoascus*: the taxonomic significance of the presence of α-(1-2)(1-6)mannan and α-(1-4)glucan 363
Aphanoascus mephitalus
The chemical composition of the wall of six species of *Aphanoascus*: the taxonomic significance of the presence of α-(1-2)(1-6)mannan and α-(1-4)glucan 363
Aphanoascus reticulisporus
The chemical composition of the wall of six species of *Aphanoascus*: the taxonomic significance of the presence of α-(1-2)(1-6)mannan and α-(1-4)glucan 363
Aphanoascus saturnoideus
The chemical composition of the wall of six species of *Aphanoascus*: the taxonomic significance of the presence of α-(1-2)(1-6)mannan and α-(1-4)glucan 363
Aphanoascus terreus
The chemical composition of the wall of six species of *Aphanoascus*: the taxonomic significance of the presence of α-(1-2)(1-6)mannan and α-(1-4)glucan 363
Aphanoascus verrucosus
The chemical composition of the wall of six species of *Aphanoascus*: the taxonomic significance of the presence of α-(1-2)(1-6)mannan and α-(1-4)glucan 363
Apiognomonia errabunda
Morphometric evidence for host-specific strain formation in *Discula umbrinella* 420
Appressorium formation
Production of appressoria by *Monilinia fructicola* 425
Aquatic hyphomycetes
Diurnal variation in aquatic Hyphomycete spore concentrations in an Australian stream 89

Endophytic aquatic hyphomycetes of roots of spruce, birch and maple 305
Concerning *Varicosporium tricladiiforme* anam. nov. 935
Arabidopsis thaliana
A contribution to the life history of *Plasmodiophora brassicae*: secondary plasmodia development in root galls of *Arabidopsis thaliana* 877
Armillaria novae-zelandiae
Armillaria novae-zelandiae in Papua New Guinea 278
Arthrobotrys oligospora
Conidial traps – a new survival structure of the nematode trapping fungus *Arthrobotrys oligospora* 194
Fungal attachment to nematodes 401
Articulospora antipodea
Endophytic aquatic hyphomycetes of roots of spruce, birch and maple 305
Aryl-alcohol oxidase
Light stimulation of aryl-alcohol oxidase activity in *Pleurotus eryngii* 984
Ascocarp development
Physiology and biochemistry of ascocarp induction and development 705
Ascocarp formation
Evidence for the production during mating of factors involved in suppression of asexual sporulation and the induction of ascocarp formation in *Pyrenopeziza brassicae* 757
Ascotaiwania
Ascotaiwania, a new amphisphaeriaceous ascomycete genus on wood from Taiwan 481
Ascotaiwania lignicola
Ascotaiwania, a new amphisphaeriaceous ascomycete genus on wood from Taiwan 481
Aspergillus
D-Glucose soluble starch, a novel medium for inducing microcyclic conidiation in *Aspergillus* 490
Aspergillus flavus
Inhibition of aflatoxin B1 production by emetine in stationary cultures of *Aspergillus flavus* 385
Aspergillus niveus
Cellulase activity of a thermotolerant *Aspergillus niveus* isolated from desert soil 14
Aspergillus thermomutatus
Neosartorya pseudofischeri sp. nov. and its relationship to other species in *Aspergillus* section *Fumigati* 547
Asterionella formosa
Comparative ultrastructural ontogeny of zoosporangia of *Zygorhizidium affluens* and *Z. planktonicum*, chytrid parasites of the diatom *Asterionella formosa* 1047
Ultrastructural study of operculation (discharge apparatus) and zoospore discharge in zoosporangia of *Zygorhizidium affluens* and *Z. planktonicum*, chytrid parasites of the diatom *Asterionella formosa* 1060
Balladyna
Ultrastructure of the wall of the hyphal coils of the Microthyriaceae 798
Ballistospore discharge
Discharge of ballistospores in *Tilletiaria anomala* 987
Barley
Drechslera wirreganensis – a new hyphomycete affecting barley in Australia 886
Basidiocarp development
Capacity for differentiation of setae and other hyphal types of the basidiome in explants from cultures of the polypore *Phellinus contiguus* 949
Basidiomycotina
Identity and distribution of Basidiomycotina colonizing Douglas fir poles during three years of air seasoning 321
Basidiospore development
Persistent meiotic arrest in basidia of *Agaricus bisporus* 125
Basidiospore formation
Teliospore germination, basidiospore formation and the infection process of *Puccinia xanthii* on *Xanthium occidentale* 661
Basidiospore identification
Identification of basidiomycete spores by neural network analysis of flow cytometry data 697
Basidiospore release
A time-course study of teliospore germination and basidiospore release in *Melampsora pinitorqua* 442
Basidium structure
Structure of the basidium in *Tilletia lolii* 369
Beauveria
World-wide distribution of genetic variation among isolates of *Beauveria* spp. 1007
Benomyl
Differential effects of griseofulvin and benomyl on morphology and nuclear distribution during the germination of *Neurospora crassa* macroconidia 147
Biological control
Effects of osmotic and matric potential on growth and oospore germination of the biocontrol agent *Pythium oligandrum* 588
Screening of some basidiomycetes for biocontrol of *Rigidoporus lignosus* a parasite of the rubber tree *Hevea brasiliensis* 621
Biology of *Coniothyrium minitans* and its potential for use in disease biocontrol 897
Biotechnology
Presidential address 1991. Myco-protein: a twenty-year overnight success story 1
Biotransformation
Identification of xyloside conjugates formed from anthracene by *Rhizoctonia solani* 509
Bipolaris obclavata
New *Bipolaris*, *Curvularia* and *Exserohilum* species. 485
Bipolaris oryzae
Development of resistance in *Bipolaris oryzae* against edifenphos 454
Biscogniauxia citriforme
A new variety and combination for *Hypoxylon citriforme* 895
Biscogniauxia citriforme var ***macrospora***
A new variety and combination for *Hypoxylon citriforme* 895
***Bis*-noryangonin**
A new styrylpyrone-containing *Cortinarius* from Australia 743
Blastocladiella emersonii
Inwardly directed ionic currents of *Allomyces macrogynus* and other water moulds indicate sites of proton-driven nutrient transport but are incidental to tip growth 925
Botryotinia
Developmental biology of sclerotia 801
Botrytis cinerea
Purification and characterization of four polygalacturonases from *Botrytis cinerea* 343
Effects of nikkomycin and echinocandin on differentiated and undifferentiated mycelia of *Botrytis cinerea* and *Mucor rouxii* 371
Lectins in different members of the Sclerotiniaceae. 495
Antifungal activity of chitosan on postharvest pathogens: induction of morphological and cytological alterations in *Rhizopus stolonifer* 769
Brasiliomyces cyclobalanopsidis
Brasiliomyces cyclobalanopsidis sp. nov., a new powdery mildew on *Cyclobalanopsis glauca* 702
Brassica napus
Histopathology of resistant mustard and susceptible canola hypocotyls infected by *Rhizoctonia solani* 171
Gall development in hairy root cultures infected with *Plasmodiophora brassicae* 225
DNA fingerprinting for differentiating aggressivity groups of the rape seed pathogen *Leptosphaeria maculans* 651
Intraspecific variation in soluble mycelial protein and esterase patterns of *Leptosphaeria maculans* French isolates 677
C-AMP
2,4-D induced, c-AMP mediated, sclerotial formation in *Rhizoctonia solani* 863
Candida kefyr
Karyotype and isoenzyme profiles do not correlate in *Kluyveromyces marxianus* var. *marxianus* 637
Canthium
Ultrastructure of the wall of the hyphal coils of the Microthyriaceae 798
Carex rostrata
Phaeostalagmus rossicus sp. nov. from Russia 908
Catenaria anguillulae
Fungal attachment to nematodes 401
Cavendishia pubescens
Tremorgenic mycotoxins, paspalitrem A and C, from a tropical *Phomopsis* 977
Cellular slime moulds
Vertebrates as vectors of cellular slime moulds in temperate forests 670
Cellulase
Cellulase activity of a thermotolerant *Aspergillus niveus* isolated from desert soil 14
Cellulase activity
Enhancement of *in vitro* spore germination of *Gigaspora rosea* by a cellulase preparation 626
Cercospora epicoccoides
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911

Cercospora eucalypti
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Cercosporella anamirtae
New species of *Cercosporella* and *Pseudocercospora* from South India 55
Cerotelium
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Chitin
Ultrastructural localization of chitin in the asci, ascospore and hyphal wall in *Tuber melanosporum* 59
Chitosan
Antifungal activity of chitosan on postharvest pathogens: induction of morphological and cytological alterations in *Rhizopus stolonifer* 769
Chloroxylon swietenia
New species of *Cercosporella* and *Pseudocercospora* from South India 55
Choristoneura fumiferana
Metabolites toxic to spruce budworm from balsam fir needle endophytes 281
Chromosomes
The chromosome complement of *Erysiphe graminis* f. sp. *hordei* analysed by light microscopy and field inversion gel electrophoresis 97
Citric acid
Production of organic acids by immobilized filamentous fungi 563
Citrus fruit rot
Yeasts associated with rotting citrus fruits in Tucuman, Argentina 891
Cladosporium herbarum
Invasion of rust (*Puccinia poarum*) pycnia and aecia on coltsfoot (*Tussilago farfara*) by secondary pathogens: death of host leaves 309
Claviceps paspali
Tremorgenic mycotoxins, paspalitrem A and C, from a tropical *Phomopsis* 977
Cochliobolus heterostrophus
The *Pgr1* mutant of *Cochliobolus heterostrophus* lacks a p-diphenol oxidase involved in naphthalenediol melanin synthesis 959
Coelomycetes
Nypaella frondicola gen. et sp. nov., *Plectophomella nypae* sp. nov. and *Pleurophomopsis nypae* sp. nov. (Coelomycetes) from intertidal fronds of *Nypa fruticans* 210
Discosia ludwigii sp. nov. 527
Colletotrichum gloeosporioides
Colony descriptions, conidium morphology, and the effect of temperature on colony growth of *Colletotrichum gloeosporioides* isolated from *Stylosanthes* spp. growing in several countries 128
Colletotrichum musae
The spore matrix and germination in *Colletotrichum musae* 592
Colony development
Colony descriptions, conidium morphology, and the effect of temperature on colony growth of *Colletotrichum gloeosporioides* isolated from *Stylosanthes* spp. growing in several countries 128
Compatibility types
Armillaria novae-zelandiae in Papua New Guinea 278
Competition
The effect of temperature and substratum on competition among three species of forest litter microfungi 19
Conidia
Conidia in *Helicogloea* and *Saccoblastia* in relation to taxonomy 734
Conidiogenesis
Ultrastructural aspects of conidiogenesis of *Fusarium* spp. in the section *Liseola* 187
The conidial stage in *Exidiopsis effusa* and *E. longispora* 932
Conidiogenesis in five species of *Umbilicaria* 1033
Conidium morphology
Colony descriptions, conidium morphology, and the effect of temperature on colony growth of *Colletotrichum gloeosporioides* isolated from *Stylosanthes* spp. growing in several countries 128
Coniothyrium minitans
Biology of *Coniothyrium minitans* and its potential for use in disease biocontrol 897
Continuous culture
Characterization of morphological mutants generated spontaneously in glucose-limited, continuous flow cultures of *Fusarium graminearum* 555
Coprinus cinereus
Kinetics and mechanics of stem gravitropism in *Coprinus cinereus* 817
Cortinarius
The effects of sulphur dioxide and ozone on the mycorrhizas of Scots pine and Norway spruce in a field fumigation system 785
Cortinarius abnormis
A new styrylpyrone-containing *Cortinarius* from Australia 743
Cryopreservation
Cryopreservation of protoplasts from sporidia of *Ustilago maydis* 318
Effects of cryopreservation methods in liquid nitrogen on viability of *Puccinia abrupta* var. *partheniicola* urediniospores 473
Cryphonectria parasitica
Comparison of genetic diversity in the chestnut blight fungus, *Cryphonectria* (*Endothia*) *parasitica*, from China and the U.S. 1114
Culture
Convenient and effective methods for *in vitro* cultivation of mycelium and fruiting bodies of *Lentinus edodes* 1077
Curvularia verrucosa
New *Bipolaris*, *Curvularia* and *Exserohilum* species. 485
Cyclic AMP
Physiology and biochemistry of ascocarp induction and development 705
Cyclobalanopsis glauca
Brasiliomyces cyclobalanopsidis sp. nov., a new powdery mildew on *Cyclobalanopsis glauca* 702
Cylindrocarpon aquaticum
Endophytic aquatic hyphomycetes of roots of spruce, birch and maple 305
Daedalea sprucei
On the presence of imperforate parenthesomes in *Daedalea sprucei* and its taxonomical disposition 956
Development
Developmental biology of sclerotia 801
Kinetics and mechanics of stem gravitropism in *Coprinus cinereus* 817
Diaporthales
Intertidal mangrove fungi: *Pedumispora* gen. nov. (Diaporthales) 78
Dictyostelium
Vertebrates as vectors of cellular slime moulds in temperate forests 670
Didymosphaeria enalia
Intertidal mangrove fungi from the West coast of Mexico, including one new genus and two new species 25
Differentiation
Capacity for differentiation of setae and other hyphal types of the basidiome in explants from cultures of the polypore *Phellinus contiguus* 949
Extracellular amylase in myxomycete plasmodia and its fate during differentiation 990
Discosia ludwigii
Discosia ludwigii sp. nov. 527
Discula umbrinella
Morphometric evidence for host-specific strain formation in *Discula umbrinella* 420
Distribution
The influence of abiotic factors on the distribution and abundance of *Metarhizium anisopliae* in Tasmanian pasture soils 378
DNA content
The duplication cycle and DAPI-DNA contents in nuclei of germinating zoospore cysts of *Phytophthora infestans* 355
Characterisation of fungal spores using flow cytometry 1016
Quantification of the nuclear DNA content of two arbuscular mycorrhizal fungi 1071
DNA fingerprinting
DNA fingerprinting for differentiating aggressivity groups of the rape seed pathogen *Leptosphaeria maculans* 651
DNA hybridization
Neosartorya pseudofischeri sp. nov. and its relationship to other species in *Aspergillus* section *Fumigati* 547
DNA hybridization and polymerase chain reaction (PCR) tests for identification of *Gaeumannomyces*, *Phialophora* and *Magnaporthe* isolates 629
DNA probes
DNA probes for species and strain identification in the ectomycorrhizal fungus *Hebeloma* 161
Identification of *Gaeumannomyces graminis* var. *tritici* and *G. graminis* var. *avenae* using a DNA probe and non-molecular methods 737
Dolipore septa
On the presence of imperforate parenthesomes in *Daedalea sprucei* and its taxonomical disposition 956
Drechmeria coniospora
Fungal attachment to nematodes 401
Drechslera
Pyrenophora hordei – a new ascomycete with *Drechslera* anamorph affecting barley in Australia 1068

Drechslera wirreganensis
Drechslera wirreganensis – a new hyphomycete affecting barley in Australia 886
Drosophila
Yeasts associated with rotting citrus fruits in Tucuman, Argentina 891
Echidnodella
Ultrastructure of the wall of the hyphal coils of the Microthyriaceae 798
Echinocandin
Effects of nikkomycin and echinocandin on differentiated and undifferentiated mycelia of *Botrytis cinerea* and *Mucor rouxii* 371
Ecology
Diurnal variation in aquatic Hyphomycete spore concentrations in an Australian stream 89
Ectomycorrhizal fungi
DNA probes for species and strain identification in the ectomycorrhizal fungus *Hebeloma* 161
Production of acid is responsible for antibiosis by some ectomycorrhizal fungi 971
Translocation of solutes in ectomycorrhizal and saprotrophic rhizomorphs 135
Effects of temperature and incubation time on the ability of three ectomycorrhizal fungi to colonise *Pinus sylvestris* roots 270
Hydrogel bead inocula for the production of ectomycorrhizal eucalypts for plantations 273
Influence of intracellular phosphorus concentration on phosphate absorption by the ectomycorrhizal basidiomycete *Pisolithus tinctorius* 673
Edifenphos
Development of resistance in *Bipolaris oryzae* against edifenphos 454
Electrophoresis
The chromosome complement of *Erysiphe graminis* f. sp. *hordei* analysed by light microscopy and field inversion gel electrophoresis 97
Emetine
Inhibition of aflatoxin B1 production by emetine in stationary cultures of *Aspergillus flavus* 385
Emex australis
Phomopsis emicis sp. nov. on *Emex australis* in South Africa and Western Australia 75
Empoasca kraemeri
Temperature-dependent germination and host penetration of the entomophthoralean fungus *Zoophthora radicans* on the leaf hopper *Empoasca kraemeri* 38
Endophytes
Metabolites toxic to spruce budworm from balsam fir needle endophytes 281
Isozyme polymorphism in six endophytic *Phyllosticta* species 287
Endophytic aquatic hyphomycetes of roots of spruce, birch and maple 305
Septal ultrastructure of some fungal endophytes from boreal orchid mycorrhizas 583
Endothia parasitica
Comparison of genetic diversity in the chestnut blight fungus, *Cryphonectria* (*Endothia*) *parasitica*, from China and the U.S. 1114
Enniatin B
Cultural and toxigenic variability in *Fusarium acuminatum* 518
Entomogenous fungi
Temperature-dependent germination and host penetration of the entomophthoralean fungus *Zoophthora radicans* on the leaf hopper *Empoasca kraemeri* 38
Characterization of *Metarhizium anisopliae* isolates from Tasmanian pasture soils and their pathogenicity to redheaded cockchafer (Coleoptera: Scarabaeidae: *Adoryphorus couloni*) 92
Morphology and growth in culture of *Microhilum oncoperae*, the cause of a mycosis of *Oncopera* spp. larvae 578
Entyloma
Karyotyping and G+C composition as taxonomic criteria applied to the systematics of *Tilletiopsis* and related taxa 331
Enzymes
Effect of the nematode *Panagrellus redivivus* on growth and enzyme production by *Phanerochaete velutina* and *Stereum hirsutum* 1019
Epicoccum nigrum
Invasion of rust (*Puccinia poarum*) pycnia and aecia on coltsfoot (*Tussilago farfara*) by secondary pathogens: death of host leaves 309
Ergosterol
The relationship between fungal growth and ergosterol content of wheat grain 965
Erysiphe graminis
Infection attempts of cultivated barley (*Hordeum vulgare*) with isolates of *Erysiphe graminis* collected from *Hordeum murinum* in southwestern Europe 1029
Erysiphe graminis* f. sp. *hordei
The chromosome complement of *Erysiphe graminis* f. sp. *hordei* analysed by light microscopy and field inversion gel electrophoresis 97
Esterase profiles
Intraspecific variation in soluble mycelial protein and esterase patterns of *Leptosphaeria maculans* French isolates 677
Eucalyptus
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Eurotium amstelodami
Evaluation of solutes for their ability to retard spreading of *Eurotium amstelodami* on enumeration media 749
The relationship between fungal growth and ergosterol content of wheat grain 965
Evolution
Developmental biology of sclerotia 801
Exidiopsis effusa
The conidial stage in *Exidiopsis effusa* and *E. longispora* 932
Exidiopsis longispora
The conidial stage in *Exidiopsis effusa* and *E. longispora* 932
Exserohilum psidii
New *Bipolaris*, *Curvularia* and *Exserohilum* species. 485
Falciformispora
Intertidal mangrove fungi from the West coast of Mexico, including one new genus and two new species 25
Falciformispora lignatilis
Intertidal mangrove fungi from the West coast of Mexico, including one new genus and two new species 25
Ficus carica
First record of the natural occurrence in Europe of the basidiomycete *Pleurotus cystidiosus* on a new host 874
Flow cytometry
Identification of basidiomycete spores by neural network analysis of flow cytometry data 697
Characterisation of fungal spores using flow cytometry 1016
Fruiting
Glucoamylase activity and water-soluble polysaccharides during monokaryotic and dikaryotic fruiting in *Schizophyllum commune* 597
Gene expression during fruiting in *Schizophyllum commune* 609
Fusarium
Ultrastructural aspects of conidiogenesis of *Fusarium* spp. in the section *Liseola* 187
Invasion of rust (*Puccinia poarum*) pycnia and aecia on coltsfoot (*Tussilago farfara*) by secondary pathogens: death of host leaves 309
Mycogeography of *Fusarium*: survey of *Fusarium* species in subtropical and semi-arid grassland soils from Queensland, Australia 780
Fusarium acuminatum
Cultural and toxigenic variability in *Fusarium acuminatum* 518
Fusarium graminearum
Presidential address 1991. Myco-protein: a twenty-year overnight success story 1
Characterization of morphological mutants generated spontaneously in glucose-limited, continuous flow cultures of *Fusarium graminearum* 555
Fusarium moniliforme* var. *fici
A re-evaluation of *Fusarium moniliforme* var. *fici*, the causal agent of fig endosepsis 766
Gaeumannomyces
DNA hybridization and polymerase chain reaction (PCR) tests for identification of *Gaeumannomyces*, *Phialophora* and *Magnaporthe* isolates 629
Gaeumannomyces graminis* var *avenae
Identification of *Gaeumannomyces graminis* var. *tritici* and *G. graminis* var. *avenae* using a DNA probe and non-molecular methods 737
Gaeumannomyces graminis* var *tritici
Identification of *Gaeumannomyces graminis* var. *tritici* and *G. graminis* var. *avenae* using a DNA probe and non-molecular methods 737
Galls
Gall development in hairy root cultures infected with *Plasmodiophora brassicae* 225
Gene expression
Gene expression during fruiting in *Schizophyllum commune* 609
Genetics
Genetic control of the sexual cycle in *Neurospora* 241
Genotypic variation
World-wide distribution of genetic variation among isolates of *Beauveria* spp. 1007

Comparison of genetic diversity in the chestnut blight fungus, *Cryphonectria (Endothia) parasitica*, from China and the U.S. 1114
Geomyces pannorus
The effect of temperature and substratum on competition among three species of forest litter microfungi 19
Geotrichopsis mycoparasitica
Geotrichopsis mycoparasitica as a destructive mycoparasite 263
Germination
Temperature-dependent germination and host penetration of the entomophthoralean fungus *Zoophthora radicans* on the leaf hopper *Empoasca kraemeri* 38
The duplication cycle and DAPI-DNA contents in nuclei of germinating zoospore cysts of *Phytophthora infestans* 355
Gibberellic acid
Production of organic acids by immobilized filamentous fungi 563
Gigaspora margarita
Detection of specific antigens in the vesicular–arbuscular mycorrhizal fungi *Gigaspora margarita* and *Acaulospora laevis* using polyclonal antibodies to soluble spore fractions 477
Quantification of the nuclear DNA content of two arbuscular mycorrhizal fungi 1071
Gigaspora rosea
Enhancement of *in vitro* spore germination of *Gigaspora rosea* by a cellulase preparation 626
Gliocladium roseum
Detection of presumptive mycoparasites in soil placed on host-colonized agar plates 605
Glomus constrictum
Evidence for differential responses between host/fungus combinations of vesicular–arbuscular mycorrhizas from a grassland 415
Glomus fasciculatum
Evidence for host-mycorrhizal preference in native grassland species 359
Glomus geosporum
Evidence for host-mycorrhizal preference in native grassland species 359
Glomus versiforme
Quantification of the nuclear DNA content of two arbuscular mycorrhizal fungi 1071
Glucoamylase activity
Glucoamylase activity and water-soluble polysaccharides during monokaryotic and dikaryotic fruiting in *Schizophyllum commune* 597
Gluconic acid
Production of organic acids by immobilized filamentous fungi 563
Glyphosphate
The influence of the herbicide glyphosate on interspecific interactions between four soil fungal species 180
Grassland flora
Evidence for host-mycorrhizal preference in native grassland species 359
Mycogeography of *Fusarium*: survey of *Fusarium* species in subtropical and semi-arid grassland soils from Queensland, Australia 780
Gravitropism
Kinetics and mechanics of stem gravitropism in *Coprinus cinereus* 817
Griseofulvin
Differential effects of griseofulvin and benomyl on morphology and nuclear distribution during the germination of *Neurospora crassa* macroconidia 147
Growth
Effect of the nematode *Panagrellus redivivus* on growth and enzyme production by *Phanerochaete velutina* and *Stereum hirsutum* 1019
Halophytophthora spinosa
Distribution and experimental responses to substrate of marine oomycetes (*Halophytophthora* spp.) in mangrove ecosystems 851
Halophytophthora vesicula
Distribution and experimental responses to substrate of marine oomycetes (*Halophytophthora* spp.) in mangrove ecosystems 851
Halosarpheia marina
Lignicolous fungi of tropical mangrove wood 413
Halosarpheia retorquens
Lignicolous fungi of tropical mangrove wood 413
Hapalophragmium
A monograph of *Hapalophragmium* 461
Hapalophragmium philippinense
A monograph of *Hapalophragmium* 461
Harley, J.L.
Obituary. J. L. Harley, 1911–1990 239
Haustoria
Ultrastructure of the thistle rust, *Puccinia punctiformis* 81
Hebeloma cylindrosporum
DNA probes for species and strain identification in the ectomycorrhizal fungus *Hebeloma* 161
Helicogloea lagerheimii
Conidia in *Helicogloea* and *Saccoblastia* in relation to taxonomy 734
Heliscus lugdunensis
Endophytic aquatic hyphomycetes of roots of spruce, birch and maple 305
Hemibeltrania cymbiformis
Hemibeltrania cymbiformis sp. nov. a new Hyphomycete from Ivory Coast forest litter 145
Hendersonia grandispora
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Heterothallism
Functional heterothallism resulting from homokaryotic conidia and ascospores in *Neurospora tetrasperma* 103
Hevea brasiliensis
Screening of some basidiomycetes for biocontrol of *Rigidoporus lignosus* a parasite of the rubber tree *Hevea brasiliensis* 621
Hispidin
A new styrylpyrone-containing *Cortinarius* from Australia 743
Histology
Histopathology of resistant mustard and susceptible canola hypocotyls infected by *Rhizoctonia solani* 171
Hordeum murinum
Infection attempts of cultivated barley (*Hordeum vulgare*) with isolates of *Erysiphe graminis* collected from *Hordeum murinum* in southwestern Europe 1029
Hordeum vulgare
Infection attempts of cultivated barley (*Hordeum vulgare*) with isolates of *Erysiphe graminis* collected from *Hordeum murinum* in southwestern Europe 1029
Pyrenophora hordei – a new ascomycete with *Drechslera* anamorph affecting barley in Australia 1068
Hormonema dematioides
Metabolites toxic to spruce budworm from balsam fir needle endophytes 281
Host–pathogen relationships
Morphometric evidence for host-specific strain formation in *Discula umbrinella* 420
Host range
Evidence for differential responses between host/fungus combinations of vesicular–arbuscular mycorrhizas from a grassland 415
Hydrogel beads
Hydrogel bead inocula for the production of ectomycorrhizal eucalypts for plantations 273
Hydrophobins
Gene expression during fruiting in *Schizophyllum commune* 609
Hyphal differentiation
Location of hyphal differentiation in the agar pore field of the basidiome of *Phellinus contiguus* 313
Hyphal extension
Inwardly directed ionic currents of *Allomyces macrogynus* and other water moulds indicate sites of proton-driven nutrient transport but are incidental to tip growth 925
Hypoxylon citriforme
A new variety and combination for *Hypoxylon citriforme* 895
Immobilized filamentous fungi
Production of organic acids by immobilized filamentous fungi 563
Indole-3-acetic acid
Indole-3-ethanol produced by *Zygorrhynchus moelleri*, an indole-3-acetic acid analogue with antifungal activity 71
Indole-3-ethanol
Indole-3-ethanol produced by *Zygorrhynchus moelleri*, an indole-3-acetic acid analogue with antifungal activity 71
Infection
Teliospore germination, basidiospore formation and the infection process of *Puccinia xanthii* on *Xanthium occidentale* 661
Infectivity
Infection attempts of cultivated barley (*Hordeum vulgare*) with isolates of *Erysiphe graminis* collected from *Hordeum murinum* in southwestern Europe 1029
Inoculum production
Hydrogel bead inocula for the production of ectomycorrhizal eucalypts for plantations 273
Interaction
The influence of the herbicide glyphosate on interspecific interactions between four soil fungal species 180
Reformation of mycorrhizal symbioses on Mount St. Helens, 1980–1990: interactions of rodents and mycorrhizal fungi 447

Iron metabolism
Structures and functions of fungal siderophores containing hydroxamate and complexone type iron binding ligands 529
Isoenzyme analysis
Isozyme polymorphism in six endophytic *Phyllosticta* species 287
Re-examination of *Psilocybe subaeruginosa* and related species with comparative morphology, isozymes and mating compatibility studies 429
Karyotype and isoenzyme profiles do not correlate in *Kluyveromyces marxianus* var. *marxianus* 637
Taxonony of some *Xylaria* spp. and xylariaceous endophytes by isozyme electrophoresis 723
Purification and characterization of the two constitutively produced acid phosphatase isozymes from *Schizophyllum commune* 792
World-wide distribution of genetic variation among isolates of *Beauveria* spp. 1007
Itaconic acid
Production of organic acids by immobilized filamentous fungi 563
Julella avicenniae
Julella avicenniae (Borse) comb. nov. (Thelenellaceae) from intertidal mangrove wood and miscellaneous fungi from the North East coast of Queensland 939
Karyotypes
Karyotyping and G+C composition as taxonomic criteria applied to the systematics of *Tilletiopsis* and related taxa 331
Karyotype and isoenzyme profiles do not correlate in *Kluyveromyces marxianus* var. *marxianus* 637
Key
A monograph of *Hapalophragmium* 461
Taxonomic evaluation of *Perichaena depressa* and *P. quadrata* based on controlled cultivation, with additional observations on the genus 1085
Kirramyces
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Kirramyces epicoccoides
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Kirramyces eucalypti
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Kirramyces lilianiae
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Kluyveromyces marxianus* var. *marxianus
Karyotype and isoenzyme profiles do not correlate in *Kluyveromyces marxianus* var. *marxianus* 637
Labyrinthuloides minuta
Association of thraustochytrids and fungi with living marine algae 542
Lactarius illyricus
Lactarius illyricus sp. nov. from Slovenia 694
Leaf litter
The effect of temperature and substratum on competition among three species of forest litter microfungi 19
Leaf spot diseases
Pollaccia catenospora sp. nov. associated with leaf spots of willow 658
Stigmina dehradunensis, a new species associated with leaf spots in *Ougeinia oojeinensis* from India 893
Pseudocercosporella leaf spot: a new destructive disease of *Ougeinia oojeinensis* from India 524
Lectins
Lectins in different members of the Sclerotiniaceae. 495
Lentinus edodes
Convenient and effective methods for *in vitro* cultivation of mycelium and fruiting bodies of *Lentinus edodes* 1077
Leptosphaeria maculans
DNA fingerprinting for differentiating aggressivity groups of the rape seed pathogen *Leptosphaeria maculans* 651
Intraspecific variation in soluble mycelial protein and esterase patterns of *Leptosphaeria maculans* French isolates 677
Light
Light stimulation of aryl-alcohol oxidase activity in *Pleurotus eryngii* 984
Lignicolous fungi
Lignicolous fungi of tropical mangrove wood 413
Lignin degradation
Light stimulation of aryl-alcohol oxidase activity in *Pleurotus eryngii* 984
Isolation and screening of basidiomycetes with high peroxidative activity 1098
Lignincola laevis
Lignicolous fungi of tropical mangrove wood 413
Lindra thalassiae
Association of thraustochytrids and fungi with living marine algae 542
Liseola
Ultrastructural aspects of conidiogenesis of *Fusarium* spp. in the section *Liseola* 187
Lulworthia
Lignicolous fungi of tropical mangrove wood 413
Magnaporthe
DNA hybridization and polymerase chain reaction (PCR) tests for identification of *Gaeumannomyces*, *Phialophora* and *Magnaporthe* isolates 629
Magnaporthe grisea
Development of monoclonal antibodies specific for *Pyricularia grisea*, the rice blast pathogen 867
Malupa
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Malupa morobeana
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Malupa sojae
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Malupa wagateae
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Mangrove fungi
Intertidal mangrove fungi from the West coast of Mexico, including one new genus and two new species 25
Lignicolous fungi of tropical mangrove wood 413
Distribution and experimental responses to substrate of marine oomycetes (*Halophytophthora* spp.) in mangrove ecosystems 851
Julella avicenniae (Borse) comb. nov. (Thelenellaceae) from intertidal mangrove wood and miscellaneous fungi from the North East coast of Queensland 939
Aigialus striatispora sp. nov. from intertidal mangrove wood 1044
Marine algae
Association of thraustochytrids and fungi with living marine algae 542
Marine fungi
Intertidal mangrove fungi from the West coast of Mexico, including one new genus and two new species 25
Distribution and experimental responses to substrate of marine oomycetes (*Halophytophthora* spp.) in mangrove ecosystems 851
Julella avicenniae (Borse) comb. nov. (Thelenellaceae) from intertidal mangrove wood and miscellaneous fungi from the North East coast of Queensland 939
Mating reactions
The mating system of *Suillus bovinus* 237
Re-examination of *Psilocybe subaeruginosa* and related species with comparative morphology, isozymes and mating compatibility studies 429
Mating type genes
Fungal mating type genes – regulators of sexual development 993
Matric potential
Effects of osmotic and matric potential on growth and oospore germination of the biocontrol agent *Pythium oligandrum* 588
Medium composition
Evaluation of solutes for their ability to retard spreading of *Eurotium amstelodami* on enumeration media 749
Meiosis
Persistent meiotic arrest in basidia of *Agaricus bisporus* 125
Melampsora pinitorqua
A time-course study of teliospore germination and basidiospore release in *Melampsora pinitorqua* 442
Melanin
The *Pgr1* mutant of *Cochliobolus heterostrophus* lacks a p-diphenol oxidase involved in naphthalenediol melanin synthesis 959
Metarhizium anisopliae
Characterization of *Metarhizium anisopliae* isolates from Tasmanian pasture soils and their pathogenicity to redheaded cockchafer (Coleoptera: Scarabaeidae: *Adoryphorus couloni*) 92
The influence of abiotic factors on the distribution and abundance of *Metarhizium anisopliae* in Tasmanian pasture soils 378
Microcycle conidiation
D-Glucose soluble starch, a novel medium for inducing microcyclic conidiation in *Aspergillus* 490

Microhilum oncoperae
Morphology and growth in culture of *Microhilum oncoperae*, the cause of a mycosis of *Oncopera* spp. larvae 578
Milesia bauhiniae
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Milesia bauhiniicola
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Milesia canavaliae
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Milesia crotalariae
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Milesia cubana
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Milesia dunbariae
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Milesia erythrinae-ovalifoliae
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Moniliformin
Cultural and toxigenic variability in *Fusarium acuminatum* 518
Monilinia fructicola
Production of appressoria by *Monilinia fructicola* 425
Monoclonal antibodies
Development of monoclonal antibodies specific for *Pyricularia grisea*, the rice blast pathogen 867
Morchella esculenta
Formation of sclerotia by *Morchella esculenta*: relationship between media composition and turgor potential in the mycelium 943
Morphogenesis
Physiology and biochemistry of ascocarp induction and development 705
morphology
Soft rot and multiple T-branching by the basidiomycete *Oudemansiella mucida* 49
Morphology
Differential effects of griseofulvin and benomyl on morphology and nuclear distribution during the germination of *Neurospora crassa* macroconidia 147
Re-examination of *Psilocybe subaeruginosa* and related species with comparative morphology, isozymes and mating compatibility studies 429
Characterization of morphological mutants generated spontaneously in glucose-limited, continuous flow cultures of *Fusarium graminearum* 555
Antifungal activity of chitosan on postharvest pathogens: induction of morphological and cytological alterations in *Rhizopus stolonifer* 769
Mortierella hyalina
The effect of temperature and substratum on competition among three species of forest litter microfungi 19
Mount St Helens
Reformation of mycorrhizal symbioses on Mount St. Helens,1980–1990: interactions of rodents and mycorrhizal fungi 447
Mucor rouxii
Effects of nikkomycin and echinocandin on differentiated and undifferentiated mycelia of *Botrytis cinerea* and *Mucor rouxii* 371
Mutants
Characterization of morphological mutants generated spontaneously in glucose-limited, continuous flow cultures of *Fusarium graminearum* 555
Mycelium development
Effects of nikkomycin and echinocandin on differentiated and undifferentiated mycelia of *Botrytis cinerea* and *Mucor rouxii* 371
Mycocentrospora clavata
Endophytic aquatic hyphomycetes of roots of spruce, birch and maple 305
Mycogeography
Mycogeography of *Fusarium*: survey of *Fusarium* species in subtropical and semi-arid grassland soils from Queensland, Australia 780
Mycoparasites
Geotrichopsis mycoparasitica as a destructive mycoparasite 263
Detection of presumptive mycoparasites in soil placed on host-colonized agar plates 605
Isolation of mycoparasitic species of *Pythium* with spiny oogonia from soil in California 857
Biology of *Coniothyrium minitans* and its potential for use in disease biocontrol 897
Mycoprotein
Presidential address 1991. Myco-protein: a twenty-year overnight success story 1
Mycorrhizal fungi
Evidence for host-mycorrhizal preference in native grassland species 359
The rate of development of mycorrhizas affects the onset of sporulation and production of external hyphae by two species of *Acaulospora* 643
The effects of sulphur dioxide and ozone on the mycorrhizas of Scots pine and Norway spruce in a field fumigation system 785
Quantification of the nuclear DNA content of two arbuscular mycorrhizal fungi 1071
Mycorrhizal synthesis
Mycorrhiza formed by basidiospores of *Tomentella crinalis* on *Pinus sylvestris* 215
Reformation of mycorrhizal symbioses on Mount St. Helens,1980–1990: interactions of rodents and mycorrhizal fungi 447
Mycosphaerella graminicola
Observations on the ascogenous stage of *Septoria tritici* in Texas 65
Mycosporins
Physiology and biochemistry of ascocarp induction and development 705
Mycotoxins
Cultural and toxigenic variability in *Fusarium acuminatum* 518
Tremorgenic mycotoxins, paspalitrem A and C, from a tropical *Phomopsis* 977
Myxomycetes
Extracellular amylase in myxomycete plasmodia and its fate during differentiation 990
Taxonomic evaluation of *Perichaena depressa* and *P. quadrata* based on controlled cultivation, with additional observations on the genus 1085
Necrotrophic fungi
Invasion of rust (*Puccinia poarum*) pycnia and aecia on coltsfoot (*Tussilago farfara*) by secondary pathogens: death of host leaves 309
Nematode fungi
Conidial traps – a new survival structure of the nematode trapping fungus *Arthrobotrys oligospora* 194
Fungal attachment to nematodes 401
Neosartoria pseudofischeri
Neosartorya pseudofischeri sp. nov. and its relationship to other species in *Aspergillus* section *Fumigati* 547
Neural network analysis
Identification of basidiomycete spores by neural network analysis of flow cytometry data 697
Neurospora crassa
Differential effects of griseofulvin and benomyl on morphology and nuclear distribution during the germination of *Neurospora crassa* macroconidia 147
Genetic control of the sexual cycle in *Neurospora* 241
Neurospora tetrasperma
Functional heterothallism resulting from homokaryotic conidia and ascospores in *Neurospora tetrasperma* 103
New combinations
A new variety and combination for *Hypoxylon citriforme* 895
Neosartorya pseudofischeri sp. nov. and its relationship to other species in *Aspergillus* section *Fumigati* 547
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Julella avicenniae (Borse) comb. nov. (Thelenellaceae) from intertidal mangrove wood and miscellaneous fungi from the North East coast of Queensland 939
On the presence of imperforate parenthesomes in *Daedalea sprucei* and its taxonomical disposition 956
New genera
Intertidal mangrove fungi from the West coast of Mexico, including one new genus and two new species 25
Nypaella frondicola gen. et sp. nov., *Plectophomella nypae* sp. nov. and *Pleurophomopsis nypae* sp. nov. (Coelomycetes) from intertidal fronds of *Nypa fruticans* 210
Pitostroma abietinum gen. et sp. nov., a new coelomycete on twigs of *Abies alba* 685
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911

Ascotaiwania, a new amphisphaeriaceous ascomycete genus on wood from Taiwan 481
New names
Concerning *Varicosporium tricladiiforme* anam. nov. 935
New species
Intertidal mangrove fungi from the West coast of Mexico, including one new genus and two new species 25
New species of *Cercosporella* and *Pseudocercospora* from South India 55
Phomopsis emicis sp. nov. on *Emex australis* in South Africa and Western Australia 75
Hemibeltrania cymbiformis sp. nov. a new Hyphomycete from Ivory Coast forest litter 145
Nypaella frondicola gen. et sp. nov., *Plectophomella nypae* sp. nov. and *Pleurophomopsis nypae* sp. nov. (Coelomycetes) from intertidal fronds of *Nypa fruticans* 210
A new species of *Tricladium* from Kumaun Himalaya, India 229
Spiral-spored *Tulasnella* species from Devon and the New Forest 233
A monograph of *Hapalophragmium* 461
Ascotaiwania, a new amphisphaeriaceous ascomycete genus on wood from Taiwan 481
New *Bipolaris*, *Curvularia* and *Exserohilum* species. 485
Tropical species of *Psathyrella* with ornamented spores 503
A new species of *Triblidium* from *Rhododendron* in Britain 507
Pseudocercosporella leaf spot: a new destructive disease of *Ougeinia oojeinensis* from India 524
Discosia ludwigii sp. nov. 527
Neosartorya pseudofischeri sp. nov. and its relationship to other species in *Aspergillus* section *Fumigati* 547
Pollaccia catenospora sp. nov. associated with leaf spots of willow 658
Pitostroma abietinum gen. et sp. nov., a new coelomycete on twigs of *Abies alba* 685
Lactarius illyricus sp. nov. from Slovenia 694
Brasiliomyces cyclobalanopsidis sp. nov., a new powdery mildew on *Cyclobalanopsis glauca* 702
A new styrylpyrone-containing *Cortinarius* from Australia 743
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Drechslera wirreganensis – a new hyphomycete affecting barley in Australia 886
Stigmina dehradunensis, a new species associated with leaf spots in *Ougeinia oojeinensis* from India 893
Phaeostalagmus rossicus sp. nov. from Russia 908
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Aigialus striatispora sp. nov. from intertidal mangrove wood 1044
Pyrenophora hordei – a new ascomycete with *Drechslera* anamorph affecting barley in Australia 1068
New variety
A new variety and combination for *Hypoxylon citriforme* 895
Nigrospora sphaerica
Variations in tropical airspora in Singapore 221
Nikkomycin
Effects of nikkomycin and echinocandin on differentiated and undifferentiated mycelia of *Botrytis cinerea* and *Mucor rouxii* 371
Nuclear behaviour
Differential effects of griseofulvin and benomyl on morphology and nuclear distribution during the germination of *Neurospora crassa* macroconidia 147
Nuclei
The duplication cycle and DAPI-DNA contents in nuclei of germinating zoospore cysts of *Phytophthora infestans* 355
Nutrient movement
Inwardly directed ionic currents of *Allomyces macrogynus* and other water moulds indicate sites of proton-driven nutrient transport but are incidental to tip growth 925
Nypa fruticans
Nypaella frondicola gen. et sp. nov., *Plectophomella nypae* sp. nov. and *Pleurophomopsis nypae* sp. nov. (Coelomycetes) from intertidal fronds of *Nypa fruticans* 210
Nypaella
Nypaella frondicola gen. et sp. nov., *Plectophomella nypae* sp. nov. and *Pleurophomopsis nypae* sp. nov. (Coelomycetes) from intertidal fronds of *Nypa fruticans* 210
Nypaella frondicola
Nypaella frondicola gen. et sp. nov., *Plectophomella nypae* sp. nov. and *Pleurophomopsis nypae* sp. nov. (Coelomycetes) from intertidal fronds of *Nypa fruticans* 210
Obituary
Obituary. Stephen Denis Garrett, ScD, FRS, 1906–1989: an appreciation 157
Obituary. J. L. Harley, 1911–1990 239
Oncobasidium theobromae
Weather patterns associated with sporulation of *Oncobasidium theobromae* on cocoa 31
Oncopera intricata
Morphology and growth in culture of *Microhilum oncoperae*, the cause of a mycosis of *Oncopera* spp. larvae 578
Oncopera rufobrunnea
Morphology and growth in culture of *Microhilum oncoperae*, the cause of a mycosis of *Oncopera* spp. larvae 578
Oomycetes
Distribution and experimental responses to substrate of marine oomycetes (*Halophytophthora* spp.) in mangrove ecosystems 851
Oospore germination
Effects of osmotic and matric potential on growth and oospore germination of the biocontrol agent *Pythium oligandrum* 588
Orchid
Ultrastructural changes during the symbiotic development of *Spiranthes sinensis* (Orchidaceae) protocorms associated with binucleate *Rhizoctonia* anastomosis group C 199
Orchid mycorrhizas
Septal ultrastructure of some fungal endophytes from boreal orchid mycorrhizas 583
Organic acids
Production of organic acids by immobilized filamentous fungi 563
Ornithine decarboxylase
Insensitivity of *Septoria tritici* and *Ustilago maydis* to inhibitors of ornithine decarboxylase 395
Osmotic potential
Effects of osmotic and matric potential on growth and oospore germination of the biocontrol agent *Pythium oligandrum* 588
Oudemansiella mucida
Soft rot and multiple T-branching by the basidiomycete *Oudemansiella mucida* 49
Ougeineia oojeinensis
Pseudocercosporella leaf spot: a new destructive disease of *Ougeinia oojeinensis* from India 524
Ougeinia oojeinensis
Stigmina dehradunensis, a new species associated with leaf spots in *Ougeinia oojeinensis* from India 893
Oxalic acid
Production of acid is responsible for antibiosis by some ectomycorrhizal fungi 971
Ozone
The effects of sulphur dioxide and ozone on the mycorrhizas of Scots pine and Norway spruce in a field fumigation system 785
Panagrellus redivivus
Effect of the nematode *Panagrellus redivivus* on growth and enzyme production by *Phanerochaete velutina* and *Stereum hirsutum* 1019
Papulaspora
Detection of presumptive mycoparasites in soil placed on host-colonized agar plates 605
Parthogenicity
Identification of *Gaeumannomyces graminis* var. *tritici* and *G. graminis* var. *avenae* using a DNA probe and non-molecular methods 737
Paspalitrem
Tremorgenic mycotoxins, paspalitrem A and C, from a tropical *Phomopsis* 977
Pathogenicity
Invasion of rust (*Puccinia lagenophorae*) aecia on groundsel (*Senecio vulgaris*) by secondary pathogens: death of the host 142
Histopathology of resistant mustard and susceptible canola hypocotyls infected by *Rhizoctonia solani* 171
DNA fingerprinting for differentiating aggressivity groups of the rape seed pathogen *Leptosphaeria maculans* 651
Reaction of sorghum lines to downy mildew (*Peronosclerospora sorghi*) *in vitro* 889
Paxillus involutus
Effects of temperature and incubation time on the ability of three ectomycorrhizal fungi to colonise *Pinus sylvestris* roots 270
Peach
Interactions of pesticides and mycoflora of peach twigs 1105
Pedumispora
Intertidal mangrove fungi: *Pedumispora* gen. nov. (Diaporthales) 78
Pedumispora rhizophorae
Intertidal mangrove fungi: *Pedumispora* gen. nov. (Diaporthales) 78

Penicillium aurantiogriseum
The relationship between fungal growth and ergosterol content of wheat grain 965
Penicillium lapidosum
Variations in tropical airspora in Singapore 221
Peniophora
Identity and distribution of Basidiomycotina colonizing Douglas fir poles during three years of air seasoning 321
Perichaena depressa
Taxonomic evaluation of *Perichaena depressa* and *P. quadrata* based on controlled cultivation, with additional observations on the genus 1085
Perichaena quadrata
Taxonomic evaluation of *Perichaena depressa* and *P. quadrata* based on controlled cultivation, with additional observations on the genus 1085
Peronosclerospora sorghi
Reaction of sorghum lines to downy mildew (*Peronosclerospora sorghi*) *in vitro* 889
Peroxidase
Isolation and screening of basidiomycetes with high peroxidative activity 1098
Pesticides
Interactions of pesticides and mycoflora of peach twigs 1105
Phaeoseptoria eucalypti
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Phaeoseptoria luzonensis
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Phaeoseptoria papayae
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Phaeostalagmus rossicus
Phaeostalagmus rossicus sp. nov. from Russia 908
Phakopsora
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Phakopsora bauhiniicola
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Phakopsora castellanii
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Phakopsora cubana
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Phanerochaete chrysosporum
Isolation and screening of basidiomycetes with high peroxidative activity 1098
Phanerochaete velutina
Effect of the nematode *Panagrellus redivivus* on growth and enzyme production by *Phanerochaete velutina* and *Stereum hirsutum* 1019
Phellinus contiguus
Location of hyphal differentiation in the agar pore field of the basidiome of *Phellinus contiguus* 313
Capacity for differentiation of setae and other hyphal types of the basidiome in explants from cultures of the polypore *Phellinus contiguus* 949
Phenol oxidase
The *Pgr1* mutant of *Cochliobolus heterostrophus* lacks a p-diphenol oxidase involved in naphthalenediol melanin synthesis 959
Phialophora
DNA hybridization and polymerase chain reaction (PCR) tests for identification of *Gaeumannomyces*, *Phialophora* and *Magnaporthe* isolates 629
Phoma exigua
Invasion of rust (*Puccinia poarum*) pycnia and aecia on coltsfoot (*Tussilago farfara*) by secondary pathogens: death of host leaves 309
Phoma lingam
DNA fingerprinting for differentiating aggressivity groups of the rape seed pathogen *Leptosphaeria maculans* 651
Intraspecific variation in soluble mycelial protein and esterase patterns of *Leptosphaeria maculans* French isolates 677
Phomenoic acid
Intraspecific variation in soluble mycelial protein and esterase patterns of *Leptosphaeria maculans* French isolates 677
Phomopsis
Tremorgenic mycotoxins, paspalitrem A and C, from a tropical *Phomopsis* 977
Phomopsis emicis
Phomopsis emicis sp. nov. on *Emex australis* in South Africa and Western Australia 75
Phosphatase profiles
Purification and characterization of the two constitutively produced acid phosphatase isozymes from *Schizophyllum commune* 792
Phosphate absorption
Influence of intracellular phosphorus concentration on phosphate absorption by the ectomycorrhizal basidiomycete *Pisolithus tinctorius* 673
Phyllosticta
Isozyme polymorphism in six endophytic *Phyllosticta* species 287
Physopella
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Physopella castellanii
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Physopella desmodii-pulchelli
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Physopella tanakae
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Phytophthora erythroseptica
Molecular characterization of *Phytophthora* isolates with nonpapillate sporangia causing root rot of raspberry using mtDNA restriction fragment length polymorphisms 571
Phytophthora fragariae
Molecular characterization of *Phytophthora* isolates with nonpapillate sporangia causing root rot of raspberry using mtDNA restriction fragment length polymorphisms 571
Phytophthora infestans
The duplication cycle and DAPI-DNA contents in nuclei of germinating zoospore cysts of *Phytophthora infestans* 355
An analysis of self-fertility in field isolates of *Phytophthora infestans* 390
Phytophthora megasperma
Molecular characterization of *Phytophthora* isolates with nonpapillate sporangia causing root rot of raspberry using mtDNA restriction fragment length polymorphisms 571
Picea abies
Fungal associations of serially washed healthy non-mycorrhizal roots of *Picea abies* 151
Picea rubens
Metabolites toxic to spruce budworm from balsam fir needle endophytes 281
Piloderma croceum
Effects of temperature and incubation time on the ability of three ectomycorrhizal fungi to colonise *Pinus sylvestris* roots 270
Pinirhiza rosea
Effects of temperature and incubation time on the ability of three ectomycorrhizal fungi to colonise *Pinus sylvestris* roots 270
Pinus sylvestris
Mycorrhiza formed by basidiospores of *Tomentella crinalis* on *Pinus sylvestris* 215
Effects of temperature and incubation time on the ability of three ectomycorrhizal fungi to colonise *Pinus sylvestris* roots 270
Pisolithus tinctorius
Influence of intracellular phosphorus concentration on phosphate absorption by the ectomycorrhizal basidiomycete *Pisolithus tinctorius* 673
Pitostroma
Pitostroma abietinum gen. et sp. nov., a new coelomycete on twigs of *Abies alba* 685
Pitostroma abietinum
Pitostroma abietinum gen. et sp. nov., a new coelomyce¹e on twigs of *Abies alba* 685
Plasmodia
A contribution to the life history of *Plasmodiophora brassicae*: secondary plasmodia development in root galls of *Arabidopsis thaliana* 877
Plasmodiophora brassicae
Gall development in hairy root cultures infected with *Plasmodiophora brassicae* 225
A contribution to the life history of *Plasmodiophora brassicae*: secondary plasmodia development in root galls of *Arabidopsis thaliana* 877
Plectophomella nypae
Nypaella frondicola gen. et sp. nov., *Plectophomella nypae* sp. nov. and *Pleurophomopsis nypae* sp. nov. (Coelomycetes) from intertidal fronds of *Nypa fruticans* 210

Pleospora avicenniae
Julella avicenniae (Borse) comb. nov. (Thelenellaceae) from intertidal mangrove wood and miscellaneous fungi from the North East coast of Queensland 939
Pleurophomopsis nypae
Nypaella frondicola gen. et sp. nov., *Plectophomella nypae* sp. nov. and *Pleurophomopsis nypae* sp. nov. (Coelomycetes) from intertidal fronds of *Nypa fruticans* 210
Pleurotus cystidiosus
First record of the natural occurrence in Europe of the basidiomycete *Pleurotus cystidiosus* on a new host 874
Pleurotus eryngii
Light stimulation of aryl-alcohol oxidase activity in *Pleurotus eryngii* 984
Pollaccia catenospora
Pollaccia catenospora sp. nov. associated with leaf spots of willow 658
Polyclonal antibodies
Detection of specific antigens in the vesicular–arbuscular mycorrhizal fungi *Gigaspora margarita* and *Acaulospora laevis* using polyclonal antibodies to soluble spore fractions 477
Polygalacturonase production
Purification and characterization of four polygalacturonases from *Botrytis cinerea* 343
Polymerase chain reaction
DNA hybridization and polymerase chain reaction (PCR) tests for identification of *Gaeumannomyces, Phialophora* and *Magnaporthe* isolates 629
Polysphondylium
Vertebrates as vectors of cellular slime moulds in temperate forests 670
Postia placenta
Identity and distribution of Basidiomycotina colonizing Douglas fir poles during three years of air seasoning 321
Powdery mildews
Brasiliomyces cyclobalanopsidis sp. nov., a new powdery mildew on *Cyclobalanopsis glauca* 702
Protein profiles
Intraspecific variation in soluble mycelial protein and esterase patterns of *Leptosphaeria maculans* French isolates 677
Protein synthesis
Nutritional value of *Termitomyces* mycelial protein and growth of mycelium on natural subtrates 350
Protoplasts
Cryopreservation of protoplasts from sporidia of *Ustilago maydis* 318
Psathyrella nigeriensis
Tropical species of *Psathyrella* with ornamented spores 503
Psathyrella trechispora
Tropical species of *Psathyrella* with ornamented spores 503
Pseudocercospora chloroxylicola
New species of *Cercosporella* and *Pseudocercospora* from South India 55
Pseudocercosporella ougeiniae
Pseudocercosporella leaf spot: a new destructive disease of *Ougeinia oojeinensis* from India 524
Pseudomonas gladioli* pv. *agaricola
Electron microscopy of the infection process of rapid soft rot disease of the edible mushroom *Agaricus bitorquis* 717
Psilocybe australiana
Re-examination of *Psilocybe subaeruginosa* and related species with comparative morphology, isozymes and mating compatibility studies 429
Psilocybe eucalypta
Re-examination of *Psilocybe subaeruginosa* and related species with comparative morphology, isozymes and mating compatibility studies 429
Psilocybe subaeruginosa
Re-examination of *Psilocybe subaeruginosa* and related species with comparative morphology, isozymes and mating compatibility studies 429
Psilocybe tasmaniana
Re-examination of *Psilocybe subaeruginosa* and related species with comparative morphology, isozymes and mating compatibility studies 429
Puccinia abrupta* var. *partheniicola
Effects of cryopreservation methods in liquid nitrogen on viability of *Puccinia abrupta* var. *partheniicola* urediniospores 473
Puccinia graminis
Effect of temperature on germination and germ tube development of *Puccinia recondita* and *P. graminis* urediniospores 689
Puccinia lagenophorae
Invasion of rust (*Puccinia lagenophorae*) aecia on groundsel (*Senecio vulgaris*) by secondary pathogens: death of the host 142
Puccinia poarum
Invasion of rust (*Puccinia poarum*) pycnia and aecia on coltsfoot (*Tussilago farfara*) by secondary pathogens: death of host leaves 309
Puccinia punctiformis
Ultrastructure of the thistle rust, *Puccinia punctiformis* 81
Puccinia recondita
Effect of temperature on germination and germ tube development of *Puccinia recondita* and *P. graminis* urediniospores 689
Puccinia striiformis* f. sp. *tritici
Effects of temperature on the response of some Australian wheat cultivars to *Puccinia striiformis* f. sp. *tritici* 166
Puccinia xanthii
Teliospore germination, basidiospore formation and the infection process of *Puccinia xanthii* on *Xanthium occidentale* 661
Pyrenopeziza brassicae
Evidence for the production during mating of factors involved in suppression of asexual sporulation and the induction of ascocarp formation in *Pyrenopeziza brassicae* 757
Pyrenophora hordei
Pyrenophora hordei – a new ascomycete with *Drechslera* anamorph affecting barley in Australia 1068
Pyricularia grisea
Development of monoclonal antibodies specific for *Pyricularia grisea*, the rice blast pathogen 867
Pythium acanthicum
Isolation of mycoparasitic species of *Pythium* with spiny oogonia from soil in California 857
Pythium oligandrum
Effects of osmotic and matric potential on growth and oospore germination of the biocontrol agent *Pythium oligandrum* 588
Detection of presumptive mycoparasites in soil placed on host-colonized agar plates 605
Isolation of mycoparasitic species of *Pythium* with spiny oogonia from soil in California 857
Pythium periplocum
Isolation of mycoparasitic species of *Pythium* with spiny oogonia from soil in California 857
Pythium ultimum
Production of acid is responsible for antibiosis by some ectomycorrhizal fungi 971
Quintaria lignatilis
Intertidal mangrove fungi from the West coast of Mexico, including one new genus and two new species 25
Report
Mycological Research 1991: a report on volume 95 224
Resistance
Development of resistance in *Bipolaris oryzae* against edifenphos 454
Restriction fragment length polymorphism
Molecular characterization of *Phytophthora* isolates with nonpapillate sporangia causing root rot of raspberry using mtDNA restriction fragment length polymorphisms 571
Review
Translocation of solutes in ectomycorrhizal and saprotrophic rhizomorphs 135
Genetic control of the sexual cycle in *Neurospora* 241
Fungal attachment to nematodes 401
Structures and functions of fungal siderophores containing hydroxamate and complexone type iron binding ligands 529
Production of organic acids by immobilized filamentous fungi 563
Gene expression during fruiting in *Schizophyllum commune* 609
Physiology and biochemistry of ascocarp induction and development 705
Developmental biology of sclerotia 801
Biology of *Coniothyrium minitans* and its potential for use in disease biocontrol 897
Rhizoctonia
Ultrastructural changes during the symbiotic development of *Spiranthes sinensis* (Orchidaceae) protocorms associated with binucleate *Rhizoctonia* anastomosis group C 199
Rhizoctonia solani
Histopathology of resistant mustard and susceptible canola hypocotyls infected by *Rhizoctonia solani* 171
Identification of xyloside conjugates formed from anthracene by *Rhizoctonia solani* 509
2,4-D induced, c-AMP mediated, sclerotial formation in *Rhizoctonia solani* 863
Rhizomorphs
Translocation of solutes in ectomycorrhizal and saprotrophic rhizomorphs 135

Rhizopus stolonifer
Antifungal activity of chitosan on postharvest pathogens: induction of morphological and cytological alterations in *Rhizopus stolonifer* 769
Rhododendron
A new species of *Triblidium* from *Rhododendron* in Britain 507
Rice blast disease
Development of monoclonal antibodies specific for *Pyricularia grisea*, the rice blast pathogen 867
Rigidoporus lignosus
Screening of some basidiomycetes for biocontrol of *Rigidoporus lignosus* a parasite of the rubber tree *Hevea brasiliensis* 621
Root fungi
Fungal associations of serially washed healthy non-mycorrhizal roots of *Picea abies* 151
Root rots
Molecular characterization of *Phytophthora* isolates with nonpapillate sporangia causing root rot of raspberry using mtDNA restriction fragment length polymorphisms 571
Rugulosin
Metabolites toxic to spruce budworm from balsam fir needle endophytes 281
Rust fungi
Delimitation of *Phakopsora*, *Physopella* and *Cerotelium* and their species on Leguminosae 825
Saccoblastia farinacea
Conidia in *Helicogloea* and *Saccoblastia* in relation to taxonomy 734
Salix triandra
Pollaccia catenospora sp. nov. associated with leaf spots of willow 658
Schizophillum commune
Glucoamylase activity and water-soluble polysaccharides during monokaryotic and dikaryotic fruiting in *Schizophyllum commune* 597
Schizophyllum commune
Gene expression during fruiting in *Schizophyllum commune* 609
Purification and characterization of the two constitutively produced acid phosphatase isozymes from *Schizophyllum commune* 792
Sclerotia
Developmental biology of sclerotia 801
Formation of sclerotia by *Morchella esculenta*: relationship between media composition and turgor potential in the mycelium 943
Sclerotial formation
2,4-D induced, c-AMP mediated, sclerotial formation in *Rhizoctonia solani* 863
Sclerotinia
Lectins in different members of the Sclerotiniaceae. 495
Developmental biology of sclerotia 801
Sclerotinia sclerotiorum
Isolation of mycoparasitic species of *Pythium* with spiny oogonia from soil in California 857
Biology of *Coniothyrium minitans* and its potential for use in disease biocontrol 897
Sclerotinia trifoliorum
Biology of *Coniothyrium minitans* and its potential for use in disease biocontrol 897
Sclerotiniaceae
Lectins in different members of the Sclerotiniaceae. 495
Sclerotium cepivorum
Biology of *Coniothyrium minitans* and its potential for use in disease biocontrol 897
Self-fertilisation
An analysis of self-fertility in field isolates of *Phytophthora infestans* 390
SEM
Electron microscopy of the infection process of rapid soft rot disease of the edible mushroom *Agaricus bitorquis* 717
Senecio vulgaris
Invasion of rust (*Puccinia lagenophorae*) aecia on groundsel (*Senecio vulgaris*) by secondary pathogens: death of the host 142
Septation
Septal ultrastructure of some fungal endophytes from boreal orchid mycorrhizas 583
Septoria ceuthosporoides
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Septoria eucalypti
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Septoria mortolensis
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Septoria normae
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Septoria pulcherrima
Phaeoseptoria eucalypti and similar fungi on *Eucalyptus*, with description of *Kirramyces* gen. nov. (Coelomycetes) 911
Septoria tritici
Observations on the ascogenous stage of *Septoria tritici* in Texas 65
Insensitivity of *Septoria tritici* and *Ustilago maydis* to inhibitors of ornithine decarboxylase 395
Sexual cycle
Genetic control of the sexual cycle in *Neurospora* 241
Sexual reproduction
Fungal mating type genes – regulators of sexual development 993
Siderophores
Structures and functions of fungal siderophores containing hydroxamate and complexone type iron binding ligands 529
Sinapis alba
Histopathology of resistant mustard and susceptible canola hypocotyls infected by *Rhizoctonia solani* 171
Sirodesmin PL
Intraspecific variation in soluble mycelial protein and esterase patterns of *Leptosphaeria maculans* French isolates 677
Sodium requirement
Preliminary observations on the monovalent cation relations of *Thraustochytrium aureum*, a fungus requiring sodium for growth 295
Soft rot
Soft rot and multiple T-branching by the basidiomycete *Oudemansiella mucida* 49
Soft rot disease
Electron microscopy of the infection process of rapid soft rot disease of the edible mushroom *Agaricus bitorquis* 717
Soil fungi
The influence of the herbicide glyphosate on interspecific interactions between four soil fungal species 180
The influence of abiotic factors on the distribution and abundance of *Metarhizium anisopliae* in Tasmanian pasture soils 378
Detection of presumptive mycoparasites in soil placed on host-colonized agar plates 605
Sorghum bicolor
Reaction of sorghum lines to downy mildew (*Peronosclerospora sorghi*) *in vitro* 889
Spiranthes sinensis
Ultrastructural changes during the symbiotic development of *Spiranthes sinensis* (Orchidaceae) protocorms associated with binucleate *Rhizoctonia* anastomosis group C 199
Spoilage
The relationship between fungal growth and ergosterol content of wheat grain 965
Spore dispersal
Diurnal variation in aquatic Hyphomycete spore concentrations in an Australian stream 89
Spore germination
The spore matrix and germination in *Colletotrichum musae* 592
Enhancement of *in vitro* spore germination of *Gigaspora rosea* by a cellulase preparation 626
Spores
Characterisation of fungal spores using flow cytometry 1016
Sporulation
Weather patterns associated with sporulation of *Oncobasidium theobromae* on cocoa 31
The rate of development of mycorrhizas affects the onset of sporulation and production of external hyphae by two species of *Acaulospora* 643
Evidence for the production during mating of factors involved in suppression of asexual sporulation and the induction of ascocarp formation in *Pyrenopeziza brassicae* 757
Stephen Denis Garrett
Obituary. Stephen Denis Garrett, ScD, FRS, 1906–1989: an appreciation 157
Stereum hirsutum
Effect of the nematode *Panagrellus redivivus* on growth and enzyme production by *Phanerochaete velutina* and *Stereum hirsutum* 1019
Stereum sanquinolentum
Identity and distribution of Basidiomycotina colonizing Douglas fir poles during three years of air seasoning 321
Stigmina dehradunensis
Stigmina dehradunensis, a new species associated with leaf spots in *Ougeinia oojeinensis* from India 893

Storage fungi
Evaluation of solutes for their ability to retard spreading of *Eurotium amstelodami* on enumeration media 749
Stylosanthes
Colony descriptions, conidium morphology, and the effect of temperature on colony growth of *Colletotrichum gloeosporioides* isolated from *Stylosanthes* spp. growing in several countries 128
Suillus
The effects of sulphur dioxide and ozone on the mycorrhizas of Scots pine and Norway spruce in a field fumigation system 785
Suillus bovinus
The mating system of *Suillus bovinus* 237
Suillus granulatus
The mating system of *Suillus bovinus* 237
Suillus luteus
The mating system of *Suillus bovinus* 237
Sulphur dioxide
The effects of sulphur dioxide and ozone on the mycorrhizas of Scots pine and Norway spruce in a field fumigation system 785
Symbiosis
Ultrastructural changes during the symbiotic development of *Spiranthes sinensis* (Orchidaceae) protocorms associated with binucleate *Rhizoctonia* anastomosis group C 199
Systematics
Karyotyping and G+C composition as taxonomic criteria applied to the systematics of *Tilletiopsis* and related taxa 331
The chemical composition of the wall of six species of *Aphanoascus*: the taxonomic significance of the presence of α-(1-2)(1-6)mannan and α-(1-4)glucan 363
Taxonomy
DNA hybridization and polymerase chain reaction (PCR) tests for identification of *Gaeumannomyces*, *Phialophora* and *Magnaporthe* isolates 629
Taxonony of some *Xylaria* spp. and xylariaceous endophytes by isozyme electrophoresis 723
Conidia in *Helicogloea* and *Saccoblastia* in relation to taxonomy 734
A re-evaluation of *Fusarium moniliforme* var. *fici*, the causal agent of fig endosepsis 766
Taxonomic evaluation of *Perichaena depressa* and *P. quadrata* based on controlled cultivation, with additional observations on the genus 1085
Teliospore germination
A time-course study of teliospore germination and basidiospore release in *Melampsora pinitorqua* 442
Teliospore germination, basidiospore formation and the infection process of *Puccinia xanthii* on *Xanthium occidentale* 661
Temperature
The effect of temperature and substratum on competition among three species of forest litter microfungi 19
Temperature-dependent germination and host penetration of the entomophthoralean fungus *Zoophthora radicans* on the leaf hopper *Empoasca kraemeri* 38
Colony descriptions, conidium morphology, and the effect of temperature on colony growth of *Colletotrichum gloeosporioides* isolated from *Stylosanthes* spp. growing in several countries 128
Effects of temperature on the response of some Australian wheat cultivars to *Puccinia striiformis* f. sp. *tritici* 166
Effect of temperature on germination and germ tube development of *Puccinia recondita* and *P. graminis* urediniospores 689
Termitomyces reticulatus
Nutritional value of *Termitomyces* mycelial protein and growth of mycelium on natural subtrates 350
Termitomyces sagittaeformis
Nutritional value of *Termitomyces* mycelial protein and growth of mycelium on natural subtrates 350
Termitomyces umkowaani
Nutritional value of *Termitomyces* mycelial protein and growth of mycelium on natural subtrates 350
Tetrabrachium elegans
Endophytic aquatic hyphomycetes of roots of spruce, birch and maple 305
Thelephoraceae
Mycorrhiza formed by basidiospores of *Tomentella crinalis* on *Pinus sylvestris* 215
Theobroma cacao
Weather patterns associated with sporulation of *Oncobasidium theobromae* on cocoa 31
Thermotolerant fungi
Cellulase activity of a thermotolerant *Aspergillus niveus* isolated from desert soil 14
Thraustochytrids
Association of thraustochytrids and fungi with living marine algae 542
Thraustochytrium aureum
Preliminary observations on the monovalent cation relations of *Thraustochytrium aureum*, a fungus requiring sodium for growth 295
Thraustochytrium motivum
Association of thraustochytrids and fungi with living marine algae 542
Tilletia
Karyotyping and G+C composition as taxonomic criteria applied to the systematics of *Tilletiopsis* and related taxa 331
Tilletia lolii
Structure of the basidium in *Tilletia lolii* 369
Tilletiaria anomala
Karyotyping and G+C composition as taxonomic criteria applied to the systematics of *Tilletiopsis* and related taxa 331
Discharge of ballistospores in *Tilletiaria anomala* 987
Tilletiopsis
Karyotyping and G+C composition as taxonomic criteria applied to the systematics of *Tilletiopsis* and related taxa 331
Tolypocladium cylindrosporum
World-wide distribution of genetic variation among isolates of *Beauveria* spp. 1007
Tomentella crinalis
Mycorrhiza formed by basidiospores of *Tomentella crinalis* on *Pinus sylvestris* 215
Toxins
Metabolites toxic to spruce budworm from balsam fir needle endophytes 281
Translocation
Translocation of solutes in ectomycorrhizal and saprotrophic rhizomorphs 135
Trematosphaeria lignatilis
Intertidal mangrove fungi from the West coast of Mexico, including one new genus and two new species 25
Trematosphaeria lineolatispora
Intertidal mangrove fungi from the West coast of Mexico, including one new genus and two new species 25
Tremorgenic mycotoxins
Tremorgenic mycotoxins, paspalitrem A and C, from a tropical *Phomopsis* 977
Triblidium crarense
A new species of *Triblidium* from *Rhododendron* in Britain 507
Trichaptum sprucei
On the presence of imperforate parenthesomes in *Daedalea sprucei* and its taxonomical disposition 956
Trichoderma
Detection of presumptive mycoparasites in soil placed on host-colonized agar plates 605
Trichoderma longibrachiatum
The effect of temperature and substratum on competition among three species of forest litter microfungi 19
Trichoderma reesei
Cellulase activity of a thermotolerant *Aspergillus niveus* isolated from desert soil 14
Enhancement of *in vitro* spore germination of *Gigaspora rosea* by a cellulase preparation 626
Trichothecenes
Cultural and toxigenic variability in *Fusarium acuminatum* 518
Tricladium indicum
A new species of *Tricladium* from Kumaun Himalaya, India 229
Trifolium subterraneum
The rate of development of mycorrhizas affects the onset of sporulation and production of external hyphae by two species of *Acaulospora* 643
Tuber melanosporum
Ultrastructural localization of chitin in the asci, ascospore and hyphal wall in *Tuber melanosporum* 59
Tulasnella anguifera
Spiral-spored *Tulasnella* species from Devon and the New Forest 233
Tulasnella fulcifera
Spiral-spored *Tulasnella* species from Devon and the New Forest 233
Tulasnella helicospora
Spiral-spored *Tulasnella* species from Devon and the New Forest 233
Tulasnella interrogans
Spiral-spored *Tulasnella* species from Devon and the New Forest 233
Tussilago farfara
Invasion of rust (*Puccinia poarum*) pycnia and aecia on coltsfoot (*Tussilago farfara*) by secondary pathogens: death of host leaves 309
Ulkenia visergensis
Association of thraustochytrids and fungi with living marine algae 542

Ultrastructure
Ultrastructure of the thistle rust, *Puccinia punctiformis* 81
Ultrastructural aspects of conidiogenesis of *Fusarium* spp. in the section *Liseola* 187
Ultrastructural changes during the symbiotic development of *Spiranthes sinensis* (Orchidaceae) protocorms associated with binucleate *Rhizoctonia* anastomosis group C 199
Septal ultrastructure of some fungal endophytes from boreal orchid mycorrhizas 583
Ultrastructure of the wall of the hyphal coils of the Microthyriaceae 798
Developmental biology of sclerotia 801
A contribution to the life history of *Plasmodiophora brassicae*: secondary plasmodia development in root galls of *Arabidopsis thaliana* 877
Conidiogenesis in five species of *Umbilicaria* 1033
Comparative ultrastructural ontogeny of zoosporangia of *Zygorhizidium affluens* and *Z. planktonicum*, chytrid parasites of the diatom *Asterionella formosa* 1047
Ultrastructural study of operculation (discharge apparatus) and zoospore discharge in zoosporangia of *Zygorhizidium affluens* and *Z. planktonicum*, chytrid parasites of the diatom *Asterionella formosa* 1060
Umbilicaria
Conidiogenesis in five species of *Umbilicaria* 1033
Urediniospore germination
Effect of temperature on germination and germ tube development of *Puccinia recondita* and *P. graminis* urediniospores 689
Urediniospores
Effects of cryopreservation methods in liquid nitrogen on viability of *Puccinia abrupta* var. *partheniicola* urediniospores 473
Ustilago maydis
Cryopreservation of protoplasts from sporidia of *Ustilago maydis* 318
Insensitivity of *Septoria tritici* and *Ustilago maydis* to inhibitors of ornithine decarboxylase 395
Varicosporium giganteum
Endophytic aquatic hyphomycetes of roots of spruce, birch and maple 305
Varicosporium tricladiiforme
Concerning *Varicosporium tricladiiforme* anam. nov. 935
Verruclina enalia
Intertidal mangrove fungi from the West coast of Mexico, including one new genus and two new species 25
Vertebrate vectors
Vertebrates as vectors of cellular slime moulds in temperate forests 670
Vesicular–arbuscular mycorrhizas
Evidence for differential responses between host/fungus combinations of vesicular–arbuscular mycorrhizas from a grassland 415
Detection of specific antigens in the vesicular–arbuscular mycorrhizal fungi *Gigaspora margarita* and *Acaulospora laevis* using polyclonal antibodies to soluble spore fractions 477
Wall structure
Ultrastructural localization of chitin in the asci, ascospore and hyphal wall in *Tuber melanosporum* 59
The chemical composition of the wall of six species of *Aphanoascus*: the taxonomic significance of the presence of α-(1-2)(1-6)mannan and α-(1-4)glucan 363
Water potential
Formation of sclerotia by *Morchella esculenta*: relationship between media composition and turgor potential in the mycelium 943
White rot fungi
Screening of some basidiomycetes for biocontrol of *Rigidoporus lignosus* a parasite of the rubber tree *Hevea brasiliensis* 621
Wood decay fungi
Identity and distribution of Basidiomycotina colonizing Douglas fir poles during three years of air seasoning 321
Xanthium occidentale
Teliospore germination, basidiospore formation and the infection process of *Puccinia xanthii* on *Xanthium occidentale* 661
Xylaria
Taxonony of some *Xylaria* spp. and xylariaceous endophytes by isozyme electrophoresis 723
Xyloside conjugates
Identification of xyloside conjugates formed from anthracene by *Rhizoctonia solani* 509
Yeasts
Yeasts associated with rotting citrus fruits in Tucuman, Argentina 891
Zea mays
Reaction of sorghum lines to downy mildew (*Peronosclerospora sorghi*) *in vitro* 889
Zoophthora radicans
Temperature-dependent germination and host penetration of the entomophthoralean fungus *Zoophthora radicans* on the leaf hopper *Empoasca kraemeri* 38
Zoosporangia
Comparative ultrastructural ontogeny of zoosporangia of *Zygorhizidium affluens* and *Z. planktonicum*, chytrid parasites of the diatom *Asterionella formosa* 1047
Zoospore cysts
The duplication cycle and DAPI-DNA contents in nuclei of germinating zoospore cysts of *Phytophthora infestans* 355
Zoospore discharge
Ultrastructural study of operculation (discharge apparatus) and zoospore discharge in zoosporangia of *Zygorhizidium affluens* and *Z. planktonicum*, chytrid parasites of the diatom *Asterionella formosa* 1060
Zygorgizidium planktonicum
Ultrastructural study of operculation (discharge apparatus) and zoospore discharge in zoosporangia of *Zygorhizidium affluens* and *Z. planktonicum*, chytrid parasites of the diatom *Asterionella formosa* 1060
Zygorhizidium affluens
Comparative ultrastructural ontogeny of zoosporangia of *Zygorhizidium affluens* and *Z. planktonicum*, chytrid parasites of the diatom *Asterionella formosa* 1047
Ultrastructural study of operculation (discharge apparatus) and zoospore discharge in zoosporangia of *Zygorhizidium affluens* and *Z. planktonicum*, chytrid parasites of the diatom *Asterionella formosa* 1060
Zygorhizidium planktonicum
Comparative ultrastructural ontogeny of zoosporangia of *Zygorhizidium affluens* and *Z. planktonicum*, chytrid parasites of the diatom *Asterionella formosa* 1047
Zygorrhynchus moelleri
Indole-3-ethanol produced by *Zygorrhynchus moelleri*, an indole-3-acetic acid analogue with antifungal activity 71
